PROFILE SUMMARY

Passionate and results-driven Front-End Developer and Digital Marketing Specialist with 2+ years of hands-on experience in building responsive, user-centric web applications using HTML5, CSS3, JavaScript, Bootstrap, and React.js with Redux. Adept at integrating RESTful APIs across real-time projects, with a strong focus on performance, usability, and scalability. My last role in the IT industry has equipped me with deep understanding of tech teams, client needs, and digital solution delivery in fast-paced environments.

Currently expanding my back-end development skills (Node.js, Express.js, MongoDB) to transition into a full-stack developer role

SKILLS

PROFESSIONAL SKILLS Teamwork | Adaptability | Initiative | Organizational skills | Perseverance | Leadership values | Communication | Problem-Solving

TECHNICAL SKILLS JavaScript(ES6+) | Typescript | Bootstrap | React.js | Redux-Toolkit | HTML5 | CSS3 | Restful API

WORK EXPERIENCE/PROJECTS

Frontend Developer / PharmaLife Academy Website

Swapra Technologies | Pune, Maharashtra | 2023

- Developed a responsive and mobile-friendly UI using HTML5, CSS3, JavaScript, and Bootstrap for a microservices-based education platform.
- Created dynamic exam interfaces with real-time progress tracking and interactive user experience.
- Collaborated closely with backend APIs to deliver seamless content rendering and user-specific dashboards.
- Worked closely with a collaborative team to align front-end development with project goals and backend integration.

Frontend Developer / Hilco Global Website

Swapra Technologies | Pune, Maharashtra | 2023

- Developed a responsive, cross-device website for a global financial services firm, enhancing user experience across all business units.
- Built modular UI components to support dynamic content such as service listings, client case studies, and executive profiles.
- Integrated RESTful APIs for real-time data rendering and consistent content delivery across pages.
- Collaborated with other team members.

PROJECTS

github-user-finder

Developed a responsive GitHub user search tool using **React** and **TypeScript**, integrated with the GitHub REST API for real-time profile data. Implemented Firebase for managing user preferences and storing search history across sessions.

| Front-End Developer | [React App](#) | [aquibshaikh7](#)

Expense-tracker-by-charts

Built a responsive expense tracking web app using **React.js**, **Chart.js**, and **TypeScript**, allowing users to log and visualize spending through interactive pie and bar charts. Integrated local storage for data persistence and optimized component state management with **React Hooks**.
